The man who refused to help his party a year ago, and who betrayed it as much as was in his power still aspires to Republican nomination. The party should rebuke him a second time in a way that he will never forget.

Every encouragement possible has been given by this paper to the Y. M. C. A. in its efforts to building a handsome home. The movement is most com mendable, but care should be taken by the management not to alienate a substantial part of our citizenship from it by a pernicious and indiscreet activity in matters which, at the present time. can be of no benefit to the Association For instance, meddling in politics at the present time can be of no benefit to the Association, and will not result in encoaragement in the raising of funds for the new building. It is to be sincerely hoped that such a mistake will not be made. It might be fatal to a most ex

In another column is a part of the report of the state board of agricul So far as Harrison county is con cerned, it is valueless on account of its inaccuracy, and may as well not have been issued. Its discrepancies are apparent. For instance, the wonderful increase of the acreage in wheat in 1902 over the year before; also in reference to hay. Any one with a grain of sense knows better. The trouble seems to be that they made a mistake in the statistics of 1901. More care should be taken in these reports, if they are to be of value to the Legislature and the farm ing element. The report is of no value under the circumstances to this county and if the same conditions are true in of the board might well have been dispensed with and that much saved of th

The State University is before the publie eve in an unenviable way once more source of trouble. The institution ha done some good work for the state, but at great cost. It has also been the scene of more contention than any other place in the state. For many years there has been a war on among the faculty or be tween the students and the management of the school and the battle has broken out afresh, this time with the students finally appealing to the courts. The taxpayers of this state do enough to con tribute for the purpose of maintaining the institution without paying for the differences in the school. There is some thin quite wrong, and an investigating committee ought to be appointed by the state government. The trouble under Raymond a few years ago almost destroyed the usefulness of the school. The present trouble should be nipped in the bud. If the president is at fault, let him be reprimanded and disciplined. If the students are at fault, punish them. The people of this state ask that the turmoi in that institution cease, and if it does not, they says, "relieve us from its main

SECURES BIG CONTRACT.

The West Virginia Heating & Plumbig company has secured another big ontract. It is for the heating and plumbng of the M. E. Ingalls Country Club ouse at Cincinnati. Mr. J. R. Shanklin, resident of the company, was summoned from Charleston the other day to submit bids with several of the city plumbing concerns, and he was successful in ecuring the contract. This company has several large contracts on hand now. mong them being the heating and lumbing contract for the Waldo hotel in this city.

SEVERE ATTACK OF GRIP.

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip ast winter (the second one) I actually ured myself with one bottle of Chamerlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the honest truth, I 25c, 35e and 50c. at time kept from coughing myself to pieces by taking a teaspoonful of this emedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very nildly. I had no idea that it would or ould knock out the grip, simply because I had never tried it for such a purpose but it did, and it seemed with the second attack of coughing the remely caused it to not only be less of duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." OFFICIALLY REPORTED

Is the Finding of Oil on Koon Farm Near Glen Falls by Col. Jackson.

Concerning the strike near Glen Falls, the official oil reporter has the follow ing to say in his report sent out from Rookery Bldg, Rooms land 2

"Two miles north of Clarksburg, the liam W. Jefferson's Bob Acres. It was county seat of Harrison, T. M. Jackson & Co. have drilled a test on the Robert Koon farm into the Fifth sand and the hole has filled up several hundred feet with fluid. The location of this well is many miles from any production, and for that reason is important. While the status of the well will not be determined till after it has been shot, the showing is sufficient to make it of some impor tance. A short time ago the Hope Nat ural Gas company completed a test well and got a duster, located two and half miles northeast of this strike."

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If easonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have vet to learn of a single case having resulted in pneunonia, which shows conclusively that it is a certain preventative of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by Geo. C. Stone.
